Adventis

CAPABILITIES OVERVIEW · 2026

Filipino Market & Global Audience Marketing Capabilities

How Adventis helps brands reach Filipino audiences in the UAE, across the GCC, in the Philippines and in key overseas markets.

01 · ABOUT ADVENTIS

A Dubai-based marketing agency with a Filipino market specialism.

Adventis (legally Adventis L.L.C.-FZ) is a performance marketing agency based in Dubai. We provide paid media, programmatic advertising, influencer and celebrity marketing, sponsorships, analytics, AI-powered marketing solutions and specialist Filipino market expertise. It was founded by Rui Rodrigues dos Santos and Joy Santos.

Filipino market expertise is one of our strongest specialist propositions, but Adventis is not an agency for Filipino clients only. The same capabilities serve brands of many kinds; the Filipino specialism applies them to a specific audience across several markets.

02 · WHY FILIPINO AUDIENCES MATTER

A large, internationally dispersed audience.

The Philippine Department of Foreign Affairs recorded about 10.8 million overseas Filipinos for July to December 2024. About 2.1 million were in the Middle East, about 4.4 million in the United States and about 974,000 in Canada. The audience is therefore spread across markets that differ in language, legal status, media habits and household needs, and a brand that wants to reach Filipinos usually has to think about more than one of them.

For categories such as remittance, financial services, telecoms, retail and consumer goods, Filipino communities are often a core audience rather than a niche. The commercial question is rarely whether the audience exists; it is which segment, in which market, through which channel, and how to measure it.

> Source: Philippine DFA report to the Senate Committee on Foreign Relations (27 August 2025), as reported by GMA News. Official estimates of overseas Filipinos are not the same as campaign reach.

03 · FILIPINO MARKET EXPERTISE

What the specialism covers.

Audience strategy

Who to reach, in which market, with what message, and how to measure it.

Paid media

Google, YouTube, Meta, programmatic and performance campaigns.

Influencers

Filipino nano, micro and macro creators and community personalities.

Celebrity partnerships

Identifying and developing opportunities with relevant Filipino celebrities. Adventis does not represent talent.

Events and sponsorship

Event discovery, sponsorship evaluation and community activations.

Audience intelligence

Learnings from campaigns and research that improve each new plan.

04 · MARKETS COVERED

One Filipino audience. Many markets.

UAE

Filipino consumers across Dubai, Abu Dhabi, Sharjah and the wider UAE. Our base, our community calendar and our deepest campaign experience.

GCC

Saudi Arabia, Qatar, Kuwait, Oman and Bahrain as well as the UAE. Population, media opportunities, advertising rules and cultural context vary by market, so each is scoped separately; smaller markets such as Oman and Bahrain are often best planned as part of a regional programme.

Philippines

International and regional brands that want to reach Filipino consumers inside the Philippines. Adventis plans, buys and measures digital campaigns from Dubai and does not operate a Philippines office.

Filipinos worldwide

Filipino communities in markets such as the United States and Canada, where Adventis has run acquisition campaigns, and other overseas markets as scoped projects.

Market	Estimated Filipinos	Source and year
Saudi Arabia	about 865,000	Philippine DFA, 2020
United Arab Emirates	about 649,000	Philippine DFA, 2020
Kuwait	about 242,000	Philippine DFA, 2020
Qatar	about 241,000	Philippine DFA, 2020
Bahrain	about 56,000	Philippine DFA, 2020
Oman	about 53,000	Philippine DFA, 2020
United States	about 4.4 million	Philippine DFA, July to December 2024
Canada	about 974,000	Philippine DFA, July to December 2024

Sources: DFA estimates for the Middle East (January 2020) as compiled in Wikipedia's "Overseas Filipinos"; DFA July to December 2024 figures as reported by GMA News. Estimates differ between sources and years.

05 · AUDIENCE STRATEGY

Combining signals instead of selecting “Filipino”.

Advertising platforms do not offer one reliable setting that finds every Filipino consumer. Strategy therefore combines geography, language, media consumption, context, search behaviour, video behaviour, content affinities, community interests, first-party or client data where available and permitted, and campaign learnings, and tests which combination performs for the objective. Adventis does not promise targeting that a platform does not support.

06 · PAID MEDIA

Google, YouTube, Meta and programmatic.

Google

Google Ads across Search, YouTube and Display, using location, language, search intent, custom segments, placements and permitted first-party data.

YouTube

Video campaigns for awareness, consideration and traffic, judged by view rate and cost per view or click-through rate and cost per click depending on the objective.

Meta

Facebook and Instagram campaigns; TikTok where appropriate to the brief.

Programmatic

Display and video buying combining geography, language and context, with supply quality controls and reporting on reach, frequency and performance.

Other capabilities include app acquisition, performance campaigns, retargeting where applicable, geographic and audience targeting, and campaign measurement and optimisation. See also Digital Advertising and Analytics & Data Science.

07 · INFLUENCER MARKETING

Filipino creators, selected on fit and audience.

We help brands identify, evaluate and activate Filipino nano, micro and macro influencers, content creators, TikTok and Instagram creators, YouTubers, community personalities and entertainment personalities. Services include discovery, audience relevance and brand-fit checks, campaign strategy, content concepts, negotiation support where applicable, activation, paid amplification and performance measurement. Scope can cover the UAE, GCC, the Philippines and international Filipino communities.

08 · CELEBRITY PARTNERSHIPS

Opportunities with Filipino celebrities and personalities.

Celebrity work differs from influencer marketing: it typically aims for credibility, scale or a high-visibility moment. Adventis can help brands identify and develop opportunities with relevant Filipino celebrities and personalities: talent sourcing, brand fit, ambassador and endorsement concepts, event and campaign appearances, digital content, social collaborations and entertainment partnerships.

> Adventis does not represent talent and holds no exclusive celebrity relationships. We work on the brand's behalf; availability, fees and terms are set by the talent and their representatives.

09 · EVENTS, SPONSORSHIP AND COMMUNITY ACTIVATIONS

The offline side of the Filipino community.

Adventis tracks Filipino festivals, concerts, cultural celebrations, Independence Day activities, Christmas events, sports leagues, family and F&B events and retail activations in the UAE, and helps brands assess sponsorship opportunities: event research, organiser identification, audience evaluation, activation concepts, influencer and celebrity integration, and paid and social amplification. Examples in our 2026 calendar include Dubai Barrio Fiesta (8 February), Kalayaan (7 June), the DSF Night Market season (October 2026 to May 2027) and Christmas community events (13 December). Dates and attendance figures are estimates from our calendar and should be confirmed with organisers.

See the live calendar on the Filipino Market Expertise page and our Media & Sponsorship page.

10 · AUDIENCE INTELLIGENCE

Research → Audience Strategy → Activation → Campaign Data → Learning → Optimisation.

Adventis develops knowledge of Filipino audiences from campaign learnings, audience and market research, media, search and video behaviour, geographic patterns, platform performance, content engagement, cultural context, community activity and, where permitted, client campaign data. Learnings are checked for sample size before they are treated as proven.

> Adventis does not sell or own personally identifiable audience data and does not claim exclusive platform audiences. Client data stays with the client; only aggregated learnings travel between campaigns. Confidential client information is not published.

11 · SELECTED EXPERIENCE

Work involving Filipino audiences.

Client	Market	Work
Remittance app (not named)	United States, Canada	Filipino audience acquisition campaigns targeting Filipino communities, with performance focused on first transactions.
UAE exchange house and remittance brand (not named)	UAE, GCC	Filipino-focused marketing strategy and media planning.
UAE grocery and hypermarket retailer (not named)	UAE	Filipino-focused YouTube and Display advertising using video, audience and geographic signals.

Clients are not named. We do not publish performance figures without client approval. Brands that appear elsewhere on adventishub.com as team experience from previous roles are not Adventis clients.

12 · CAMPAIGN METHODOLOGY

How we work.

1. **Brief and objective.** Market, audience, objective, budget, timing and required services.
2. **Audience and market scoping.** Which Filipino segments in which markets, with sourced sizing and an honest view of what is proven and what is a test.
3. **Channel and creative plan.** Paid media, creators, celebrities, events and community routes, with language and cultural adaptation.
4. **Launch with a test design.** Test and control groups where budget allows, and campaign naming that makes cohorts identifiable.
5. **Measure against the right metric.** Reach for awareness, view rate for video, click-through rate and conversions for search, first transactions for acquisition.
6. **Learn and optimise.** Feed confirmed learnings into the next round of strategy and into audience intelligence.

13 · CONTACT ADVENTIS

Looking to reach Filipino consumers?

Tell us the market or country, campaign objective, audience, approximate budget, timing and services you need.
